

Acronova Apus-EZplus Automated 100 disc DVD/CD Stand Alone Duplicator

Features

Apus-EZPlus is a high performance, compact autonomous CD/DVD duplication system. With its unique patented vertical in-line loading hopper, it is capable of storing and burning up to 100 CD or DVD at a time. Integrated with a single touch, intelligent 4 buttons variable 3 speeds LED control, and a single high-speed RW drive, duplication can never be easier. Apus-EZ Plus offers reliability, durability and performance all at an affordable price. It is the ideal choice for any organizations, offices and SOHO operations.

Self contained, burns automatically

Apus-EZ Plus is a fully standalone CD/DVD burning system. It automatically burns up to 100 CD or DVD at a time without PC connection. The open-ended disc-loading hopper permits continuous refill of blanks up to its storage capacity while job is in progress.

Multi-batch mode

In addition to the features offered with Apus-EZ, Apus-EZ Plus has a build-in hard drive that enable advance feature like multi-batch mode. Interleaving the master and blank discs into the hopper will activate this feature automatically. No complicated configuration is required.

Error detection mechanism

All Apus series are equipped with an automatic error detection mechanism. Whenever error occurs while copying is in progress, the system will automatically segregate the failed copy into a reject bin.

Throughput chart

Our seamless vertical in-line configuration minimizes cycle times between burning hence optimizes the throughput.

Model	Burning Speed	Data Size	Number of CD	Time
Apus-EZ PLUS EP5910C	52x CD	650MB	100	< 4 hours
	52x CD	100MB	100	<= 1 hour
Apus-EZ PLUS EP5910D	DVD+RW at 4x	8.4GB	100	50 hours
	DVD+R or DVD-R at 16x	4.7GB	100	15 hours

Warranty

Apus-EZ Plus comes with a 1-year Limited Warranty.

Specifications

Auto-Loader:	Separated drop and pick mechanism, patent-pending
Cycle-Time:	Less than 15 seconds per disc run (burning time excluded)
Input Hopper:	100 disc capacity
Output Hopper:	110 disc capacity
Media:	Industry standard 120 mm disc
Reject Hopper:	30 disc capacity
Optical Disc Drive:	ATAPI/IDE, industry standard 5-1/4" form factor
Write Speed:	52x maximum for CD-R duplication 16x maximum for DVD+/-R duplication (DVD models only) 4x maximum for DVD+/-RW duplication (DVD models only)
Hard-Drive:	IDE compatible hard drive (40 GB or larger)
Write CD Formats:	CD Extra, CD-ROM Mode 1 & 2 CD-DA, CD-ROM/XA Video CD, Game CD Mix Mode, HFS CD Bridge, Multi-session, Photo CD...

Host PC:	Stand-alone operation, no PC connection required
System Display:	LED displays
Front Panel Switches:	4 buttons; High-speed, normal-speed, safe-speed, test/cancel
Operation Mode:	Copy to a maximum of the selected speed - high, normal, and safe; Simulation
Firmware Upgrade:	Via CD-ROM (duplication controller)
Dimension (WxDxH):	12" x 16" x 16" (30 x 41 x 41 cm)
Package Size:	19.2" x 11.2" x 15" (48.7 x 28.4 x 38 cm)
Weight:	25 lbs or 11 kg (gross) ; 20 lbs or 9 kg (net)
Power:	100-240 VAC switchable, 50/60 Hz
Certification:	CE, FCC, UL (power supply)
